Arafura Executive Appointment

Arafura Resources Ltd is pleased to announce the appointment of Mr. Neil Graham to the position of General Manager Operations.

Professional

(BSc Chem Eng, C Eng MChemE)

Neil brings more than 20 years of international chemical industry experience encompassing design, greenfield and brownfield project management and commissioning, operations management, technical management and multiple site management roles. Prior to joining Arafura Resources, he has managed Orica's largest and most complex production facility worldwide, located in Gladstone, Queensland and his international chemical experience was built up predominantly with Huntsman (formerly ICI business) in six European and Asian countries.

Personal

Neil is 46 years old, and has a family with an international nature, with his wife Andrea, being German and their two children Torin (14 years old) and Lorena (10 years old) both being born in Italy. He has become multilingual, following substantial duration assignments in Italy and Spain/Portugal, in addition to complying with the family German needs. He has always been a keen soccer player, however in more recent years he has settled for watching rather than playing, and has taken to playing tennis. Neil enjoys experiencing different cultures, philosophies and customs in order to develop the optimum balance to ensure success in both the work and social arena.
